THE RIGHT TRAINING OF WOMEN. The Church of England Review has an article on female education, from which we take

Agents of the Peruvian Government.

COLUMBIAN GUANO,

the following passage:
"Much remains to be done in winnowing out of people's minds ridiculous ideas of a certain purely factious style of living, without which it is impossible to keep house.— There are plenty of young men who have to unlearn the foppery of expenses disproportioned to their means, and the sordidness of luxuries which feed, not self-respect, but gluttony and pride. The possibility must growing to be rational, appreciative companions; girls who, if they are ever married, will choose and value their husband for what he is, and be interested in his calling and his opportunities of observation-women who will estimate the grave and sweet realities of wife and motherhood, beyond any accident of precedence or superfluity. By dismissing false and foolish notions of repectability, by refusing the cheap fascinations of a paltry education of display, by Phosphate of Lime ... discountenancing restraints misdirected or too rigorous, by cultivating an intelligent and unassuming mode of intercourse, by a careful foresight in assisting young people to prepare themselves for the exertion and cost of one day being the centre of a peaceful, hospitable home; in these and other ways. Manufactured by POTTS & KLETT, and COE much may be done to remove obstructions to that gradual acquaintance and that unaffected respect and attachment which lead on to a happy marriage.

In the mean time it will be well to think, with not only the sympathy, but the veneration they deserve, of many among those who will never marry, to assist in multiplying the too few occupations suitable to women, or too open to them; above all, not to preach, by implication or otherwise, that woman's life need never be dwarfed to a negation, or consumed miserably away, by causes completely out of her control. There are women strong enough to keep their footing in the of lime, and that its mercantile value, as compared world singly, without a loss of womanly dignity and sweetness, and to organize around them the moral elements at all events, of an independent existence. They whose steps are feeble need the more to be helped rather than hindered in the struggle with their fainting and more yielding self. If they fall here, is it at all certain that in wedded life their lot would have been auspicious Alas! how many a faltering will has been bent and "given" beneath sanguine, unfulfilled reso-lutions to reclaim and humanize the husband who has pulled the wife down instead to his phosphate of lime, it is found to containown mean and wretched level. Marriage is not a lottery, but it is mere wilful blindness to forget that in all its higher aspects it may be wofully inverted or appalingly debased. Not all the grand provisions of tender ties and gracious insincts which surround one of the greatest of divine ordinances, will make people pure or happy who insist on being peevish or frivolous, or worldly, sensual, or devilish.

Wedded life is a great and a holy mystery, and a source of power for good, often far be-yond estimation; but unless there be at least one soul filled with unselfish love, and strong in an unflagging faith, the formal union between two persons is no guarantee whatever for a will ennobled, or affections enlarged or cleansed. And the faith which so works by love can make a sunshine in a shady place without an infant's or a husband's eye to look into. The harmonies of a developed and transfigured womanhood have been set many a time to other music than that of wedding-bells. She who is enthroned never, unnot determined by a SELECTED CHEMIST, or SELECTED der any roof, in a mother's holy sovereignty, may earn the right, in many a house, of average of the importations just as they arrive, and create or find an atmosphere in which to the time, and her brain not be idle. Living singly, yet not solitary, when she dies it will not be till "smote" by many a touch of gratitude and cheerful, reverential sympathy, "the chord of self has trembled past in music out

In "Littell's Age," there is a majestic sketch of the younger Pitt, by Lord Macaulay.

"There was something noble in the cynical disdain with which the mighty minister scattered riches and titles to right and left among those who valued them, while he spurned them out of his way. Poor himself, he was surrounded by friends on whom he bestowed three thousand, six thousand, ten thousand a year. Plain Mister himself, he had made more lords than any three minis-ters that had preceded him. The garter, for which the first dukes in the kingdom were contending, was repeatedly offered to him and offered in vain.'

GROVER & BAKER'S

FAMILY SEWING MACHINES.

5 & 7 South Fairfax-st., Alexandria.

These Machines sew from two spools, as purchased from the store, requiring no re-winding of thread. They Hem, Fell, Gather, and Stitch in a superior style, finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. They will do better and cheaper sewing than a seamstress can, even if she works for one cent an hour, and are, unquestionably, the best Machines in the market for family sewing, on account of their simplicity, durability, case of management, and adaptation to all varieties of family sewing-executing either heavy or fine work with equal facility, and without special adjustment. As evidence of the unquestioned superiorty of

their Machines, the GROVER & BAKER SEWING MACHINE COMPANY respectfully refer to the numberless testimonials to be seen at their principal depot, and with their agents. unh 10—eo2m FRUITS CAN BE PRESERVED WITH THEIR ORIGINAL FLAVOR BY USING THE "EXCELSION FRUIT and PRESERVE CANS."-They are the cheapest in use. Their popularity is constantly increasing. Hundreds who have used them can certify to their qualities.

SOMBRERO GUANO. N calling the attention of the public to this valuable and recently discovered deposit of this fertilizing article, we will merely state, that like all other phosphatic GUANOS, its most valuable with other GUANOS of its kind, may be easily de-termined by the amount of phosphoric acid or bone phosphate of lime it contains. In order, therefore, to give the public a thorough knowledge of what SOMBRERO GUANO does contain, we beg to refer to the following list of eminent chemists in different parts of the world, who have analyzed different cargoes, from average samples taken by themselves from the cargoes just as they arrive from the island, without drying or selection of specimens for analyzation. Each analysis will be exhibited, if required, under the original signature

of each chemist named: Of phosphoric acid, estimated as equivalent to Prof. Morfit, of New York,
